EMC FOR BUSINESS IDEA

The largest conference associating **practitioners and EMC** (electromagnetic compatibility) **industry lovers**, who will present study cases about EMC requirements, design and testing on the basis of their own experience and real cases. The meeting based on **the knowledge, exchange discussions, ideas and workshops focusing on the EMC future**. Great value of the event is to solve interesting cases by participants, which will contribute to the creation of new activities, will broaden the knowledge and will give new know-how for the EMC world.

The conference is addressed to companies that are interested in EMC, including electronics industry, so people who design devices for checking their compatibility, as well as making strategic decisions in the area of EMC, e.g. the choice of supplier. It focuses on real, practical cases and their troubleshooting. Its objective is primarily exchange of experience in the field of electromagnetic compatibility.
